1.2 Health & Safety Law References

The Italian law has been substantially changed in 2008 with the Legislative Decree 81/2008 (D.Lgs. 81/08). It now sums up most of the H&S legislation in one whole decree. The law is applicable to all country (including autonomous regions of Val d'Aosta, Sicilia, Sardegna, Friuli Venezia Giulia and autonomous counties of Trento and Bolzano) contrasting with the environmental law which is mostly regional and local.

Several entities are involved in enforcing H&S law in Italy: INPS, INAIL, ASL

“art. X” with no reference to law refers to D. Lgs. 81/08.
