

REC1.F2: ADVERTISEMENT FOR Fire Safety Technician

Introduction

DDS (International) Limited is a Sittingbourne based Fire Safety Management company. We are an award winning and accredited safety management organisation who thrive on tackling the complexities of day-to-day bureaucracy and making things simple and straightforward for our clients.

We provide extensive fire safety management support to our clients in the UK covering all aspects of fire safety, compliance.

The Role

A fire safety technician is responsible for the completion of fire safety inspections on buildings for the specific purpose of completing:

- Fire door surveys, inspections & reports,
- Fire safety plans & emergency response plans,
- Completion of audits and reports on secure information boxes,
- General maintenance on secure information boxes.

Fundamental to a fire safety technician's role is to support the measures required within a building to prevent the loss of life and damage to property as a result of a fire, or fire related incident.

Fire safety technicians must work to strict guidelines set out by the government and relevant fire safety bodies. They must ensure that buildings and services are compliant with relevant legislation, regulations and codes of practice.

Apprentices and Trainees for this role would be strictly supervised at all times, and all reports and plans produced must be checked and validated by a competent fire safety risk assessor/consultant.

LOCATION: HOME-BASED WITH TRAVEL TO VARIOUS LOCATIONS IN THE UK – MUST RESIDE IN LONDON OR WITHIN THE M25 BOUNDARY ONLY. CANDIDATES NOT RESIDING IN THE THIS AREA OR IN CLOSE COMMUTING DISTANCE SHOULD NOT APPLY.

What We Are Looking For

Join our award-winning team at DDS (International) Limited as a Fire Safety Technician!

We are looking for individuals who are passionate about safety and making a difference in the industry.
